Rules Supplement

Iranian National Rounds 2025

Article 1

This Rules Supplement applies to the 2025 Iranian National Rounds.

Article 2

If three Teams participate in the National Rounds, each team will participate in four matches during the Preliminary Rounds, two as Applicant and two as Respondent. If a Team wins all four matches, that Team is the National Champion. If no Team wins all four matches, the National Champion will be determined by a Championship Match between the top two Teams from the Preliminary Rounds.

If the number of Teams decreases to two, each Team will play two matches, one as Applicant and one as Respondent. The National Champion will be (a) the Team that wins both matches, or (b) if both Teams win one match, the Team with the greater number of Total Raw Points, or (c) if both Teams win one match and have an equal number of Raw Points, the Team with the greater number of Total Round Points. If both Teams are tied after the application of the previous sentence, the National Champion will be the Team with the higher Total Memorial Raw Points.
